Helping Achieve One-Pass Results

Five Factors of Clean

Programs designed to ensure all factors work together to deliver results

PROCEDURE

- On-site training proactively delivered
- Specific to the unique challenges for each facility

CHEMICAL ACTION

- Inspection of dilution control systems
- Unit-level product recommendations based on specific soil challenges, water, conditions, etc.

TIME

- Proactive maintenance of machine cycle times with specific emphasis on the challenges of each unit

MECHANICAL ACTION

- Proactive maintenance of wash arms, motors, belts, pumps, rinse jets, etc., to ensure mechanical action

TEMPERATURE

- Regular inspection and maintenance of procedures, scale buildup, etc., impacting temperature

Our dedicated team, along with the **innovative design of the dishmachines**, helps ensure all five factors work together, delivering results **for optimized operations and delighted guest experiences.**
