SANITIZING NO RINSE FLOOR CLEANER

Make your facility cleaner, safer and more energy-efficient. By using sanitizing cleaners that need no rinsing, you'll lower the risk of cross-contamination, decrease water usage and reduce your carbon footprint. This simple choice improves safety for your staff, comfort for your customers and the health of the planet, and your bottom line.

SANITIZING NO RINSE FLOOR CLEANER

Non-food-contact hard surfaces can be breeding grounds for fruit flies, Listeria, E. Coli, Staphylococcus and Salmonella. Get rid of those and other contaminants, and the odors that often accompany them, with a cleaner that helps lower your water needs and energy bills.

SANITIZING NO RINSE FLOOR CLEANER

Product Attributes

- Sanitizing properties
- Enzyme-based formula
- Drain application
- No-rinse formula
- Cold-water application
- Closed-loop dispensing system

Benefits

- Reduce risk of cross-contamination, killing 99.9% of Listeria, E. Coli, Staphylococcus and Salmonella¹ from non-food-contact hard surfaces like floors, drains, mop buckets, etc.
- Cuts grease, fats and oils, reducing risks of slips and falls.
- Reduces the feeding and breeding grounds of fruit flies.
- Lowers water consumption: Saves the average kitchen **5,500 gallons** of water per year.²
- Saves energy: Less is needed, as water does not need to be heated to 140°F (49°C), as it does with hot-water cleaners.
- Prevents leaks, drips and direct contact with skin.

¹On a 5-minute contact time.

²No-rinse formula saves 10-20 gallons per application.

Insights

2011 CDC findings* report that Salmonella and Staphylococcus are two of the five most common pathogens contributing to domestically acquired foodborne illnesses.
